

# One step! Into the Next Era

## MAREWA-SYSTEM

Maritime Remote Watchman System

— Ship Engine Remote Monitoring Equipment —

Marewa System

### MAREWA System

that ensures your crew a safe and trouble-free passage

#### Background and On-site Issues

Hard labor on board

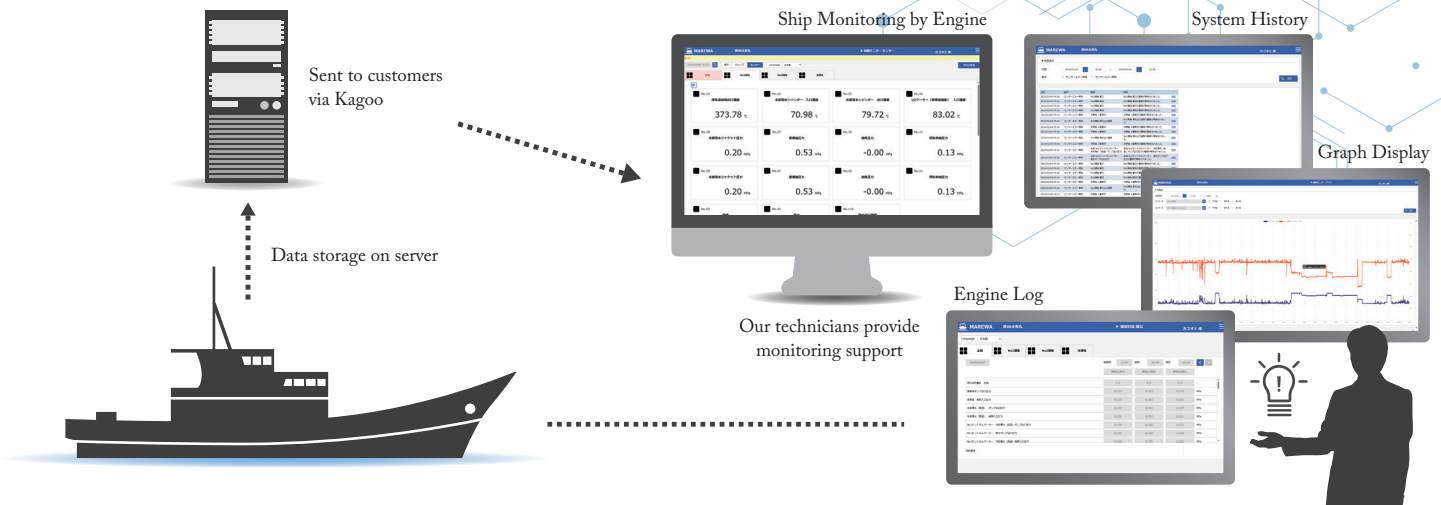

Overlooking abnormalities

Difficulty investigating causes

Significant loss of opportunities

Data collected from instruments installed on the ship allows real-time monitoring of the ship's engine conditions at sea, directly from your office.

- Improving operational efficiency
- Supporting safe navigation
- Providing information to solve problems

## Standard Specifications [Including installation and setting]

Data Logger		1 unit
Units (8 items per unit)		(8 × 8 = 64 sensors can be installed) 8 units
Main engine	Exhaust temperature, Coolant temperature, Lubricant temperature, Coolant pressure, Lubricant pressure, Fuel pressure, Intake pressure, Tachometer, etc.	32 items
